

Ebenezer SaaS - Getting started

This PDF is your setup guide for Ebenezer SaaS, the free cloud billing app for shops worldwide. No ZIP install. You use it in any modern browser.

1. What this software does

Create invoices, quotations, and credit notes. Track stock and customers. Record expenses. Print on A4, A5, or thermal printers.

2. Start in 10 minutes

- Open the SaaS product page and choose Get started free.
- Create your shop name and currency (USD or your local currency).
- Add 5 products you sell every day.
- Add one customer and make a test invoice.
- Print or save the invoice as PDF.

3. Daily shop flow

Morning: check stock alerts. During the day: bill each sale. Evening: close the day and note cash vs system total.

4. Who it is for

Retail stores, traders, and small shops in any country who still bill on paper, Excel, or a basic app.

5. Support

Ask Eben AI on the store, or email support from ebenezerdigital.com/contact.
